Vocational Studies

MOHIT MANGAL
A Complete Career Guide
www.mohitmangal.com

AVAILABLE DEGREES

DEGREE	DURATION	ELIGIBILITY
B.Voc.(Bachelor of Vocation)	3 Year	10+2 any stream
B.A. (Voc. Studies) (Bachelor of Arts in Vocational Studies)	3 Year	10+2 any stream
B. Com. (Bachelor of Commerce - Vocational)	3 Year	10+2 any stream

Vocational Courses are skill-based courses which are available in the form of a Diploma (through ITIs or other vocational training institutions) or a B.Voc. Degree offered by colleges / universities. The vocational education with a component of long duration 'on the job' training has a high potential for jobs. Many industries partner in the vocational training of young people by giving them opportunities as apprentices, trainees or as students under the National Employability Enhancement Mission (NEEM) Scheme.

Specializations

3D Animation
Accounting and Related Fields
Acting
Agricutlural Sciences and Business
Airport Management
Animation & Graphic Design
Apparel Design & Manufacturing
Applied Computer Technology
A.I. & Machine Learning
Automobile Technology
Bamboo & Wood Technology
Banking, Fin. Services & Insurance
Beauty Salon and Spa
Biomedical Sciences
Building Construction & Tech.
Business Process & Data Analytics
Chemical and Petrochemical Engg.

Syllabus

Entrance Exams What to Study?

MOHIT MANGAL
A Complete Career Guide
www.mohitmangal.com

The Syllabus for various entrance exams is specified on the official websites of the conducting agency. While some exams like the NEET and JEE, have a clear definition of subjects and content, many General Aptitude Entrance Exams give a broad definition of the subjects and content. Provided here, is a general syllabus for various entrance exams based on the syllabus for the most common exams of that area.

Syllabus for Medical Entrance Exams

Based on prescribed syllabus for NEET - UG

Biology	Diversity in living world, Structural organisation in animals and plants, Cell structure and function, Plant physiology, Human physiology, Reproduction, Genetics and evolution, Biology and human welfare, Biotechnology and its applications, Ecology and environment
Physics	Physics and measurement, Kinematics, Laws of motion, Work, Energy and power, Rotational motion, Gravitation, Properties of solids and liquids, Thermodynamics, Kinetic theory of gases, Oscillations and waves, Electrostatics, Current electricity, Magnetic effects of current and magnetism, Electromagnetic induction and alternating current, Electromagnetic waves, Optics, Dual nature of matter and radiation, Atoms and nuclei, Electronic devices, Experimental skills
Chemistry	**Physical Chemistry:** Some basic concepts in chemistry, Atomic structure, Chemical bonding and molecular structure, Chemical thermodynamics, Solutions, Equilibrium, Redox reactions and electrochemistry, Chemical kinetics **Inorganic Chemistry:** Classification of elements and periodicity in properties, P -Block elements, d – and f – Block elements, Co-ordination compounds **Organic Chemistry :** Purification and characterization of organic compounds, Some basic principles of organic chemistry, Hydrocarbons, Organic compounds containing halogens, Organic compounds containing oxygen , Organic compounds containing nitrogen, Biomolecules, Principles related to practical chemistry

Syllabus for Engineering Entrance Exams

Based on prescribed syllabus for JEE-Main

Mathematics	Sets, relations and functions, Complex numbers and quadratic equations, Matrices and determinants, Permutations and combinations, Binomial theorem and its simple applications, Sequence and series, Limit, continuity, and differentiability, Integral calculus, Differential equations, Co -ordinate geometry, Three-dimensional geometry, Vector algebra, Statistics and probability, Trigonometry
Physics	Physics and measurement, Kinematics, Laws of motion, Wo rk, Energy and power, Rotational motion, Gravitation, Properties of solids and liquids, Thermodynamics, Kinetic theory of gases, Oscillations and waves, Electrostatics, Current electricity, Magnetic effects of current and magnetism, Electromagnetic induction and alternating current, Electromagnetic waves, Optics, Dual nature of matter and radiation, Atoms and nuclei, Electronic devices, Experimental skills
Chemistry	**Physical Chemistry :** Some basic concepts in chemistry, Atomic structure, Chemical bonding and molecular structure, Chemical thermodynamics, Solutions, Equilibrium, Redox reactions and electrochemistry, Chemical kinetics **Inorganic Chemistry:** Classification of elements and periodicity in properties, P -Block elements, d – and f – Block elements, Co-ordination compounds **Organic Chemistry:** Purification and characterization of organic compounds, Some basic principles of organic chemistry, Hydrocarbons, Organic compounds containing halogens, Organic compounds containing oxygen, Organic compounds containing nitrogen, Biomolecules, Principles related to practical chemistry

Syllabus for Architecture Entrance Exams

Based on prescribed syllabus for JEE 1(Mains) Paper 2 A (B.Arch.)

Mathematics	Sets, relations and functions, Complex numbers and quadratic equations, Matrices and determinants, Permutations and combinations, Binomial theorem and its simple applications, Sequence and series, Limit, continuity, and differentiability, Integral calculus, Differential equations, Co-ordinate geometry, Three-dimensional geometry, Vector algebra, Statistics and probability, Trigonometry
Aptitude Test	UNIT - 1 Awareness of persons. Buildings, Materials UNIT – 2 Three dimensional- perception
Drawing Test	Sketching of scenes and activities from memory of urbanscape (public space, market, festivals, street scenes, monuments, recreational spaces, etc.). landscape (riverfronts. Jungle. Gardens, trees. Plants, etc.) and rural life. To be conducted in a Drawing sheet.

Copyright © 2015-2025 Mohit Mangal. All Rights Reserved.

Syllabus for Architecture Entrance Exams

Based on prescribed syllabus for NATA

Part A: Drawing and Composition Test	Composition and Color, Sketching & Composition (Black and White), 3D Composition
Part B	Visual Reasoning, Logical Derivation, G.K., Architecture & Design, Language Interpretation, Design Sensitivity, Design Thinking, Numerical Ability

Based on prescribed syllabus for AAT

Freehand Drawing, Geometrical Drawing, Three-dimensional Perception, Imagination and Aesthetic Sensitivity, Architectural Awareness

Syllabus for Planning Entrance Exams

Based on prescribed syllabus for JEE (Mains) Paper 2 B (B.Planning)

Mathematics	Sets, relations and functions, Complex numbers and quadratic equations, Matrices and determinants, Permutations and combinations, Binomial theorem and its simple applications, Sequence and series, Limit, continuity, and differentiability, Integral calculus, Differential equations, Co-ordinate geometry, Three-dimensional geometry, Vector algebra, Statistics and probability, Trigonometry
Aptitude Test	UNIT - 1 Awareness of persons. Buildings, Materials UNIT – 2 Three dimensional- perception
Planning	General Awareness, Social Sciences, Thinking Skills

Syllabus for Management Entrance Exams

Based on composite of Various Entrance Exams

Mathematics	**Arithmetic:** Percentages, Profit & Loss, Simple Interest & Compound Interest, Averages, Ratio & Proportion, Mixtures, Speed, Time, & Distance, Races, Work & Time, Partnerships **Number Theory and Modern Math :** Factors, Factorials, Digits, Reminders, HCF & LCM, Set Theory, Logarithm, Permutation and Combination, Probability **Algebra**: Linear and Quadratic Equations, Roots, Surds, & Indices, Polynomials, Inequalities, Functions, & Geometric Progression, Algebraic Formulae **Geometry:** Lines, Angles, Triangles, Circles, Polygons, Quadrilaterals, Mensuration, Co -ordinate Geometry, Trigonometry
English	Reading Comprehension, Paragraph Completion, Jumbled Passages, Vocabulary based questions, Fill in the blanks, Grammar based questions
Reasoning	**Analytical Reasoning :** Series, Coding, Relations, Directions, Puzzles, Seating Arrangements, Syllogisms, Cubes, Venn Diagrams **Verbal Reasoning:** Assumptions, Conclusions, Arguments, Assertion and Reasoning, Inference, Verbal Reasoning
General Knowledge and Current Affairs	The current affairs are usually from a time span of about one year prior to the date of the exam. However, this is a broad suggestion.
Data Analysis / Interpretation	Mathematical questions using tabular data, charts and graphs

Syllabus for Design Entrance Exams

Based on Prescribed Syllabus for UCEED

Part A	**Visualization and spatial reasoning**: Ability to visualise and transform 2D shapes and 3D objects and their spatial relationships. **Practical and scientific knowledge**: Know-how of scientific principles and everyday objects. **Observation and design sensitivity**: The capacity to detect concealed properties in daily life and think critically about them. Attention to detail, classification, analysis, inference and prediction. **Environment and society**: General awareness of environmental, social and cultural connections with design. **Analytical and logical reasoning**: Ability to analyse qualitative and quantitative information. **Language**: Proficiency in reading and comprehending Standard English. **Creativity**: Grasp of verbal and non-verbal analogies, metaphors, signs and symbols
Part B	**Drawing**: Ability to draw products, people or scenes in proportion with good line quality, composition, proportion, perspective and s hading. **Design aptitude**: Capability to practically and appropriately respond to problems/situations with ingenuity and empathy.

Syllabus for Hotel Management Entrance Exams

Based on Prescribed Syllabus for NCHM-JEE

English	Questions based on Reading Comprehension, Vocabulary and Grammar
Reasoning	**Analytical Reasoning:** Series, Coding, Relations, Directions, Syllogisms, Puzzles, Images **Verbal Reasoning:** Assumptions, Conclusions, Arguments, Critical Thinking
Maths	Calculations, Percentages, Averages, Ratio, Linear Equations
GK Current Affairs	Static General Knowledge, Current affairs – including questions related to hotel and service industry
Service Aptitude	Questions designed to test the situational awareness and behavior of the student in specific situations

Copyright © 2015-2025 Mohit Mangal. All Rights Reserved.

Syllabus for Law Entrance Exams

Based on prescribed syllabus for CLAT

English Language	In this section of the UG -CLAT 2024, you will be provided passages of about 450 words each. These passages will be derived from contemporary or historically significant fiction and non -fiction writing, and would be of a standard that a 12th standard student may be able to read in about 5 -7 minutes. Each passage will be followed by a series of questions that will require you to demonstrate your comprehension and language skills, including your abilities to: - Read and comprehend the main point discussed in the passage, as well as any arguments and viewpoints discussed or set out in the passage; - Draw inferences and conclusions based on the passage; - Summarise the passage; - Compare and contrast the different arguments or viewpoints set out in the passage; and - Understand the meaning of various words and phrases in the context that they are used in the passage.
Current Affairs including General Knowledge	In this section, you will be provided passages of up to 450 words each. The passages will be derived from news, journalistic sources and other non -fiction writing. The questions may include an examination of legal information or knowledge discussed in or related to the passage, but would not require any additional knowledge of the law beyond the passage. Each passage will be followed by a series of questions that will require you to demonstrate your awareness of various aspects of current affairs and general knowledge, including: - Contemporary events of significance from India and the world; - Arts and culture; - International affairs; and - Historical events of continuing significance.
Legal Reasoning	In this section, you will be expected to read passages of around 450 words each. The passages may relate to fact situations or scenarios involving legal matters, public policy questions or moral philosophical enquiries. You will not require any prior knowledge of law to attempt the questions in this section. You will benefit from a general awareness of contemporary legal and moral issues to better apply general principles or propositions to the given fact scenarios. Each passage would be followed by a series of questions that will require you to: - Identify and infer the rules and principles set out in the passage; - Apply such rules and principles to various fact situations; and - Understand how changes to the rules or principles may alter their application to various fact situations.
Logical Reasoning	The Logical Reasoning section of the UG-CLAT 2024 will include a series of short passages of about 450 words each. Each passage will be followed by one or more questions that will require you to: - Recognise an argument, its premises and conclusions; - Read and identify the arguments set out in the passage; - Critically analyse patterns of reasoning, and assess how conclusions may depend on particular premises or evidence, and how conclusions may be strengthened or weakened as a consequence of an alteration in premises or supporting facts; - Infer what follows from the passage and apply these inferences to new situations; - Draw relationships and analogies, identify contradictions and equivalence, and assess the effectiveness of arguments.
Quantitative Techniques	The Quantitative Techniques section of the UG-CLAT 2024 will include short sets of facts or propositions, or other textual representations of numerical information, followed by a series of questions. You will be required to derive information from the passages or questions, and apply mathematical operations on such information. The questions will require you to: - Derive, infer, and manipulate numerical information set out in such passages; and - Apply various 10 th standard mathematical operations on such information, including from areas such as ratios and proportions, basic algebra, mensuration and statistical estimation.

Syllabus for Common University Entrance Test

Accountancy	Accounting for Not-for-Profit Organizations and Partnership Firms - Accounting Not-for-Profit Organisation - Accounting for Partnership - Reconstitution of Partnership - Dissolution of Partnership Firm Company Accounts and Financial Statement Analysis - Accounting for Share and Debenture Capital - Analysis of Financial Statements - Statement of Changes in Financial Position Computerized Accounting System - Overview of Computerized Accounting System - Using Computerized Accounting System - Accounting Using Database Management System (DBMS) - Accounting Applications of Electronic Spreadsheet
Agriculture	Agrometeorology, Genetics and Plant Breeding, Biochemistry and Microbiology Livestock Production Crop Production Horticulture
Anthropology	Physical Anthropology Prehistoric Archaeology Material culture and economic Anthropology Social Anthropology and Ethnography Ecology

Copyright © 2015-2025 Mohit Mangal. All Rights Reserved.

Syllabus for Common University Entrance Test (CUET - UG)

Art Education Sculpture	**Painting** The Rajasthani and Pahari Schools of Miniature Painting , The Mughal and Deccan schools of miniature painting, The Bengal School and Cultural Nationalism, The Modern trends In Indian Art **Sculpture *(Study of the following sculptures)*** Triumph of Labour - D. P. Roychowdhury, Santhal Family - Ramkinker Vaij, Standing Woman - Dhanraj Bhagat, Cries Unheard - Amar Nath Sehgal, Ganesha Figure - P.V.Jankiram, Dhanpal - Sankho Chaudhuri, Chatturmukhi - Aekka Yada Giri Rao **Graphic-Prints** Whirlpool - Krishna Reddy, Children - Somnath Hore, Devi - Jyoti Bhatt, Of walls - Anupam Sud, Man, Woman and Tree - K. Laxma Goud
Biology	Reproduction, Genetics and Evolution, Biology and Human Welfare, Biotechnology and Its Applications, Ecology and Environment
Business Studies	Nature and Significance of Management, Principles of Management, Business Environment, Planning, Organising, Staffing, Directing, Controlling, Business Finance, Financial Markets, Marketing, Consumer Protection, Entrepreneurship Development
Chemistry	Solid States, Solutions, Electrochemistry, Chemical Kinetics, Surface Chemistry, General Principles and Processes of Isolation of Elements, p-Block Elements, d and f Block Elements, Coordination Compounds, Haloalkanes and Haloarenes, Alcohols, Phenols, and Ethers, Aldehydes, Ketones, and Carboxylic Acids, Organic Compounds Containing Nitrogen, Biomolecules, Polymers, Chemistry in Everyday Life
Computer Science	**Section A** Exception and File Handling in Python, Database Concepts, Structured Query Language, Computer Networks **Section B1: Computer Science** Exception and File Handling in Python, Stack, Queue, Searching, Sorting, Understanding Data, Database Concepts, Structured Query Language, Computer Networks **Section B2: Informatics Practices** Database Query using SQL, Data Handling using Pandas – I, Data Handling using Pandas – II, Plotting Data using Matplotlib, Introduction to Computer Networks, Societal Impacts, Data Communication, Security Aspects
Economics / Business Economics	Introduction to Microeconomics Consumer Behaviour and Demand **Introductory Macroeconomics** National Income and Related Aggregates — Basic Concepts and Measurement, Determination of Income and Employment, Money and Banking, Government Budget and the Economy, Balance of Payments **Indian Economic Development** Development Experience (1947-90) and Economic Reforms since 1991, Current challenges facing the Indian Economy, Development Experience of India
Engineering Graphics	**Isometric Projection of Solids** Construction of isometric scale showing main divisions of 10mm and smaller divisions of 1mm, also showing the leading angles. **Isometric Projection of Solids** Machine Drawing (Machine Parts, Assembly and Dis-assembly), Bearings, Rod Joint, Tie-rod and Pipe-joint
Entrepreneurship	Entrepreneurial Opportunity, Entrepreneurial Planning, Enterprise Marketing, Enterprise Growth Strategy, Business Arithmetic, Resource Mobilization
Environmental Studies	Human Beings and Nature, Population and Conservation Ecology, Monitoring Pollution, Third World Development, Sustainable Agriculture, Environmental and Natural Resource Economics, International Relations and the Environment
General Test	General Knowledge, Current Affairs | General Mental Ability, Numerical Ability | Reasoning (Simple application of basic mathematical concepts Quantitative arithmetic / algebra geometry /mensuration / statistics) | Logical and Analytical Reasoning.
Geography	**Fundamentals of Human Geography** Human Geography: Nature and Scope, Human Activities, Transport, Communication and Trade, Human Settlements **India: People and Economy** People, Human Settlements, Resources and Development, Transport, Communication and International Trade, Geographical Perspective on Selected Issues and Problems
History	The Story of the First Cities Harappan Archaeology, Political and Economic History: How Inscriptions tell a story, Social Histories using the Mahabharata, A History of Buddhism: Sanchi Stupa , Medieval society through Travelers' Accounts, Religious Histories: The Bhakti-Sufi Tradition, New Architecture: Hampi, Agrarian Relations: The Ain-i-Akbari, The Mughal Court: Reconstructing Histories through Chronicles, Colonialism and Rural Society: Ev idence from Official Reports, Representations of 1857, Colonialism and Indian Towns: Town Plans and Municipal Reports, Mahatma Gandhi through Contemporary Eyes, Partition through Oral Sources, The Making of the Constitution
Home Science	**Nutrition, Food science and Technology** Clinical nutrition and Dietetics, Public Nutrition and Health, Catering and food services management, Food Processing and technology, Food Quality and safety **Human Development: Lifespan Approach** Early childhood care and education, Special Education and support services, Management of institutions and programmes for children, youth and elderly **Fabric and Apparel.** Design for fabric and Apparel, Fashion design and Merchandising, Production and quality control in the Garment Industry, Care and Maintenance of fabrics in Institutions **Resource Management** Human Resource Management, Hospitality Management, Consumer Education and Protection **Communication and Extension** Development of communication and Journalism, Media management, Design, and Production **Career Options after Home Science Education** Career options of self and wage employment in various fields of Home Science

Copyright © 2015-2025 Mohit Mangal. All Rights Reserved.

Knowledge Tradition – Practices India	Agriculture: A Survey, Architecture: A Survey, Dance: A Survey, Education Systems and Practices: A Survey, Ethics: Individual and Social, Martial Arts Traditions: A Survey, Language and Grammar, Other Technologies: A Survey
Languages (IA & IB)	Questions from the Language Section will be from the following topics but are not limited to: Reading Comprehension (Factual, Narrative, Literary), Verbal Ability, Rearranging the parts, Choosing the correct word, Synonyms and Antonyms, Vocabulary **Section IA:** English, Hindi, Assamese, Bengali, Gujarati, Kannada, Malayalam, Marathi, Odia, Punjabi, Tamil, Telugu, Urdu **Section IB:** Arabic, Bodo, Chinese, Dogri, French, German, Italian, Japanese, Kashmiri, Konkani, Maithili, Manipuri , Nepali, Persian, Russian, Santhali, Sindhi, Spanish, Tibetan, Sanskrit
Legal Studies	Judiciary, Topics of Law, Arbitration, Tribunal Adjunction, and Alternative Dispute Resolution, Human Rights in India, Legal Profession in India, Legal Services, International Context, Legal Maxims
Mass Media/ Mass Communication	Communication, Journalism, TV, Radio, Cinema, Social Media, New Media
Mathematics	**Section A** Algebra, Calculus, Integration and its Applications, Differential Equations, Probability Distributions, Linear Programming **Section B1: Mathematics** Relations and Functions: Relations and Functions, Inverse Trigonometric Functions, Algebra: Matrices, Determinants, Calculus: Continuity and Differentiability, Applications of Derivatives, Integrals, Applications of Integrals, Differential Equations Vectors and Three-dimensional Geometry: Vectors, Three-dimensional Geometry, Linear Programming, Probability **Section B2: Applied Mathematics** Numbers, Quantification and Numerical Applications: Modulo Arithmetic, Congruence Modulo, Allegation and Mixture, Numerical Problems, Boats and Streams, Pipes and Cisterns, Races and Games, Partnership, Numerical Inequalities Algebra: Matrices and types of matrices, Equality of matrices, Transpose of a matrix, Symmetric and Skew symmetric matrix Calculus: Higher Order Derivatives, Marginal Cost and Marginal Revenue using derivatives Maxima and Minima Probability Distributions: Probability Distribution, Mathematical Expectation, Variance Index Numbers and Time-Based Data: Index Numbers, Construction of Index Numbers, Test of Adequacy of Index Numbers Index Numbers and Time-Based Data: Population and Sample, Parameter and Statistics and Statistical Interferences Index Numbers and Time-Based Data: Time Series, Components of Time Series, Time Series Analysis for univariate data Financial Mathematics: Perpetuity, Sinking Funds, Valuation of Bonds, Calculation of EMI, Linear method of Depreciation Linear Programming: Introduction and related terminology, Mathematical formulation of Linear Programming Problem, Different types of Linear Programming Problems, Graphical Method of Solution for problems in two variables, Feasible and Infeasible Regions Feasible and Infeasible solutions, optimal feasible solution
Performing Arts	**Section A: Hindustani – Carnatic Music** Definition, Basic Knowledge of concepts, Laya & Tala, Knowledge of Musical Forms, Contribution of musicians and composers, Musical Instruments and its classification, Knowledge of Salient features of ragas **Section B: Dance** Brief knowledge of classical dances of India, Life sketches of chief exponents and contributors of different dance forms, past and present., Knowledge of terms, Basic knowledge of texts and major folk dances, Basic knowledge of Abhinaya and Rasa theory, Survey of classical dance practice **Section C: Percussion Music – Hindustani and Carnatic** Basic knowledge of structure of Tabla, Pakhawaj & Mridangam, Varnas of Tabla, Pakhawaj and Mridangam, Knowledge of terms, Elementary knowledge of Bhatkhande Tala Notation system & Carnatic Tala Notation System, Brief study of origins of Tabla, Pakhawaj and Mridangam and the study of Gharana of Table and Pakhawaj, Knowledge of prescribed Talas, Biographies **Section D: Drama – Theatre** Introduction to Indian Classical and Traditional Theatre, Modern/ Contemporary Indian Theatre, Introduction to western classical and Medieval Drama, Modern/Contemporary Western Theatre, Theatre Production/Architecture/ Design, Review of Indian Theatre Organizations, Developing and Documenting Research Project
Physical Education	Sociological Aspects of Physical Education, Training Methods, Career Aspects in Physical Education, Career Aspects in Physical Education, Health Education & Health Problems, Sports Injuries and First Aid, Test & Measurement in Sports, Biomechanics & Sports, Psychology & Sports
Physics	Electrostatics, Current Electricity, Magnetic Effects of Current and Magnetism, Electromagnetic Induction and Alternating Currents, Electromagnetic Waves, Optics, Dual Nature of Matter and Radiation, Atoms and Nuclei, Electronic Devices, Communication Systems
Political Science	Politics in India since Independence, Contemporary World Politics
Psychology	Variations in Psychological Attributes, Self and Personality, Meeting Life Challenges, Psychological Disorders, Therapeutic Approaches, Attitude and Social Cognition, Social Influence and Group Processes, Psychology and Life, Developing Psychological Skills
Sanskrit	शब्दरूपाणि – वाक्येषुणवभणिप्रयोगाः, धातुरूपाणि, सनधयः सणनधणवच्छेदाः च, समासाः णवग्रहाः च, प्रत्ययाः, उपपदणवभणिप्रयोगाः भाणषककायवम्, छनदसांसोदाहरिलक्षिपररचयः/श्लोकेषुछनदोऽणभज्ञानम्, शब्दालङ्काराः अर्ावलङ्काराः च, संस्कृतसाणहत्यस्य सामानयपररचयः
Sociology	Structure of Indian Society, Social Institutions: Continuity and Change, Social Inequality and Exclusion, The Challenges of Unity in Diversity, Process of Social Change in India, Social Change and the Polity, Social Change and the Economy, Arenas of Social Change, New Arenas of Social Change, Social Movements
Teaching Aptitude	Two narratives/ newspaper reports about schools/teachers/ children, Questions on ata/information/analysis/issues, Based on popular films on education, books, documentaries showing the struggles of girls', tribals' and Dalits', Science, Mathematics, Arts, Music and Drama (Performing and Visual Arts), Social Sciences, Language and Literature

A total of 61 Subjects (33 language, 27 domain-specific and 01 General Test) are available under the CUET. Students may select a maximum of 06 test papers (04 or 05 domain subjects including General Test and 01 or 02 languages. The test is available in 13 languages (Assamese, Bengali, English, Gujarati, Hindi, Kannada, Malayalam, Marathi, Punjabi, Odia, Tamil, Telugu and Urdu). The exam is conducted in Hybrid mode (Pen & Paper + Computer Based Test) depending on the candidate count after the registration is complete. 40 out of 50 questions have to be answered for all test papers and 50 out of 60 for the General Test (choice of 10 Questions.). The duration for all the test papers would be 45 minutes except for Mathematics / Applied Mathematics, Accountancy, Physics, Chemistry, Economics, Computer Science / Informatics Practices and General Tests which would be for 60 minutes.

For more information regarding any course, download the Course Specific Guide from www.mohitmangal.com

National Education Policy (NEP) 2020

The Big Shift in School Education *

- The 5 + 3 + 3 + 4 curricular and pedagogical structure.
- Board examinations for both class 10 & 12 to be offered at least twice a year. Students will be allowed to retain the best score.
- The Current board format to be ruled out from the 2024-25 academic year & the new format to be adopted from the 2025 Board Exams for class 10 and 12.
- Comprehensive test-bank aided with software will be available.
- Board exams will assess understanding, achievement of competencies than months of coaching and memorization.
- Text books to be developed for 2024 academic session.
- Current practice of covering text books in classroom will be avoided.
- School boards to develop capabilities to offer 'on demand' exam in due course of time.
- Currently the students are assessed once based on 2 years of study that is class 9/10 and class 11/12. These 4 years will be converted to 8 semester based exams. Whatever a student studied in 2 semesters of class 9 will be summed up in two exams. Similarly for subsequent classes as well this will be followed.
- Education to be deeply rooted in India.
- There shall be three language formula including English Hindi and regional language.
- Gradually exams from class 9 onwards will be semester based. This, however will be implemented in the second phase of exam reforms.
- Right now priority shall be given to design the new syllabus and prepare the textbooks of class IX to XII.
- The secondary stage will be divided into phases:
  - Broad curricular areas like science, social science, humanities etc. to be chosen in class 9 and 10.
  - Disciplines like physics, history, chemistry, languages etc. within each curricular area to be chosen in class 11 and 12.
- Maths and STEM: Focus on fighting the fear of mathematics with new and interactive pedagogy and assessment interlinking mathematics with other disciplines. The rich history of mathematics and Science in India to be incorporated in the curriculum.

Level	Proposed Changes
Class 6-8	· Social Science in class 6 to 8 be organized in a thematic manner and through an integrated view of History, Geography, Political Science, Economics and other relevant disciplines such as Psychology, Philosophy, Anthropology and Sociology. The curriculum to have 20% local content, 30% regional, 30% National and 20% Global content with focus on Japan South Africa and the United States. · Three Languages from Class 6-10.
Class 9-10	· To complete class 10: students will complete two essential courses from each of the **8 curricular areas*** available. Art education, physical education and educational education would have local assessments with board certification. * · The curriculum aims at developing linguistic proficiency for academic use in three languages by age 15 that is class 10. At least two out of these three languages should be languages native to the student. · Students from class 9 onwards will study history geography Political Science and economics live as separate units.
Class 11-12	· For completing classes 11 and 12, the same set of **8 curricular areas*** will be there but choice based courses will be designed. This phase would be divided into semesters. To get a class 12th certificate the student should pass a total of six exams: 2 languages and 4 examinations from at least two curricular groups with one additional optional exam. * · Choice of subjects in class 11, 12 will not be restricted to streams, students to get flexibility to choose. · Two languages compulsory including 1 Indian language and at least one language native to India which will be studied at literature level. · Students can choose to do an in depth study from a range of Social Sciences discipline. · Semester based classes with more subject choices.
8 curricular areas	As per National Curriculum Framework, the offered subjects are divided 8 curricular areas: **1)** Maths and Computing (Mathematics | Computer Sciences | Business Mathematics) **2)** Sciences (Physics| Chemistry & Biology) **3)** Social Sciences (History| Civics| Geography & Economics) **4)** Humanities (Languages | English| Hindi| Gujarati & Philosophy Etc.) **5)** Arts (Music, dance, Theatre, Sculpture, Painting) **6)** Sports (Courses on specific Sports , Games or Yoga) **7)** Vocational Education **8)** Interdisciplinary (Commerce | Sustainability and Climate Change | Health | Media & Journalism | Indian knowledge)

The Big Shift in College Education *

Level	Proposed Changes
3-Year Bachelor	· Candidates may exit after the 1st year with a Certificate in the field of study · Candidates may exit after the 2nd year with a Diploma in the field of study · Candidates who complete the three-years course will be awarded a degree
4-Year Bachelor	· Candidates may exit after the 1st year with a Certificate in the field of study · Candidates may exit after the 2nd year with a Diploma in the field of study · Candidates who complete the three-years course will be awarded a general degree · Candidates wishing to continue after the 3rd year can specialize in a different field apart from the mandatory major or minor · Candidates who complete the 4-year degree courses will also get 'Degree with Research' or a Honours Degree if they complete rigorous research or required credits specified by the Higher Education Institute.
1-Year Master's	· Eligibility: Candidates who have completed 4-year Bachelor's degree programme with research · Research is not mandatory for a 1-year course, as the candidate would have already completed their research project in a 4-year Bachelor's degree
2-Years Master's	· Eligibility: Candidates who have completed 3-year Bachelor's degree programme · The second year of the course will be devoted to the research project and it is mandatory to complete the same
M.Phil.	· M.Phil. course has been discontinued
Ph.D.	· Candidate who have completed 4-years Bachelor's degree with Research are eligible to take up Ph.D. · Candidates who have completed 2-years Master's course can also take up Ph.D.

FAQs by Parents of School Students

MOHIT MANGAL
A Complete Career Guide
www.mohitmangal.com

Q.	**How do I help my child choose the right career option after school?**
A.	Identifying the **Orientation, Aptitude, Personality and Interest (OAPI)** of the child is the key to choose the right career option. . Their overall priority of selection of one task above the other indicates their orientation. Their comfort in particular subjects at Class 9 / 10 level and further at Class 11 / 12 level helps in understanding their aptitude. Observing the candidate in school/college, amongst friends, society, cousins, relatives etc. will give an insight about their personality. Activities which they like being engaged with, shows their interest area. For deeper understanding of your child, get the child's OAPI assessment. Mr. Mohit Mangal and his team will do the **BrainMapping** of the candidate and assess their OAPI. By aligning these four parameters, we can help the candidate choose the right subject combination in class 9-12 and right Degree option beyond.
Q.	**What are the different Career options after 10th?**
A.	In Indian education System, traditionally there were only 4 options available after Class 10. The child could choose **Science Group** (Physics, Chemistry, and Mathematics/Biology), **Commerce Group** (Accounts, Statistics, Economics and Business studies), **Arts/Humanities Group** (History, Geography, Psychology, Political Science and Sociology) or could go for a 3 year skill based **Diploma** Program. With the **NEP-2020** getting into implementation, at present children have more than 9 broad options and more than 27 Combination Options after class 10 to choose from. If you want to know about all these options in detail, you may visit our YouTube channel and watch related video for the same.
Q.	**What are the different career options after 12th?**
A.	University Grants Commission (UGC), which is the parent regulatory body of Higher Education in India under the Ministry of HRD, has broadly classified education in 15 broad areas after Class 12 for Bachelor Degrees. For the ease of understanding of the parents and students, Mr. Mangal has sub categorized a few areas and made a total of 22 verticals in which a child passing from Class 12 can take bachelor degree in. Out of these 22, there are 16 verticals of education, in which a student can take Bachelor Degree after studying ANY combination of subjects in class 11 & 12 or a three year Diploma.
Q.	**My child is not good at Math, will a lot of streams get closed for them if they leave Math after 10th?**
A.	No, for the 16 general verticals (as stated above) open to any subject combination, mathematics is not required in Class 11 / 12. Even Entrance Exams at all levels, be it Bachelor or Master, always expect the child to have knowledge of only Class X Level Maths. Higher Maths is not required for any General Entrance exam, be it SAT, ACT, GMAT, GRE for international studies or CUET-UG, IPMAT, CLAT, SET, CAT, CMAT, XAT, NET Etc. for Domestic studies. So, **DO NOT WORRY**, the child shall not be at loss anywhere.
Q.	**My child wants to follow his friends after class X / XII. What should I do?**
A.	Mr. Mangal very commonly quotes,"**Do not Follow Friends or Trends**". Please do not allow your child to follow the same subject combinations which their friends are taking. This is because each child is unique and their OAPI may not match or be same as his best friend. For deeper understanding of your child, get the child's OAPI assessment. Mr. Mohit Mangal and his team will do the Brain mapping of the candidate and assess their OAPI to help them choose the right course/plan forward.
Q.	**We want our child to join family business. Which course is most suitable for him/her?**
A.	The course which match their **OAPI** is the most suitable course for them. Pushing the child in a degree program matching your family business may not be the right thing to do. Rather we should give them a course of their interest which will make the child smart and continue being motivated to study the same. Subsequently after any education vertical, they will be in a position to take the family business forward in a better way.
Q.	**My child has a wavering mind and comes up with a different choice every now and then. What should I do?**
A.	At this age, all the four parameters i.e. **Orientation, Aptitude, Personality and Interest (OAPI)** could change naturally or by putting conscious efforts. So, in a way, it's good if they have a wavering mind, because at least they are observing, thinking and trying to explore. You can take help from Mr. Mohit Mangal and his team, who will assess the OAPI of the child and help them choose the right course/plan forward.
Q.	**I want my child to take up my profession, but am not sure if they will be able to do that?**
A.	You can take help from an Expert Career Counsellor. Mr. Mohit Mangal and his team will do the **BrainMapping** of the Child and assess their Orientation, Aptitude, Personality and Interest (OAPI). By aligning these four parameters, the child can be helped in choosing the right subject combination in class 8 / 10 and right Degree option after Class 12.

FAQs by Students from Class 9 - 12

MOHIT MANGAL
A Complete Career Guide
www.mohitmangal.com

Q.	**What Course/Stream shall I choose if I wish to appear for IAS/IPS/UPSC/Civil Service Examination?**
A.	Any candidate with minimum 21 Years of age and having completed Graduation from ANY STREAM can appear for the Exam. Traditionally Students preferred an Arts graduation, since this degree gave time for preparation of UPSC, but off late I see students from all fields, be it Medicine, Engineering or Commerce give UPSC and crack the exam. One latest trend which I see is that students go for a 5 Year Law program after Class 12 and then give UPSC Exam. This helps them in three ways: Firstly, their legal studies is in line with the study requirements of UPSC, so preparation becomes relatively automated. Secondly, Legal Studies also opens door to Judiciary Examinations. Thirdly, even if the candidate is unable to clear the exam, he/she having a professional degree in hand and can pursue profession as a lawyer.
Q.	**How can I get into Teaching Profession?**
A.	If you are passionate about any one subject or group of similar subjects, you can pursue higher education in the specific subject field and get into Teaching. You can be a Bachelor Degree holder with B.Ed. to enter in School Teaching. In Order to get into College Teaching, Higher Education like Masters/Doctorate Degree is required. One should possess the following qualities: * The ability to inspire students *Patience, caring, and kind personality * Keen interest and knowledge of specialised subject * Dedication to teaching * Capable of engaging students in learning
Q.	**Where can I pursue degree in Interior Design/ Fashion Design?**
A.	One has to pursue a degree in Design and take elective/ specialization subject choice of interior / fashion design. Apart from this, there are private institutes which give diploma/certification programmes in various fields of design, including interior / fashion design as well. One can pursue this along with any graduation degree after class 12. Also, there are Master level Programmes available in these areas.
Q.	**How can I become an Ethical Hacker/ Pursue Degree in Hacking or Cyber Security?**
A.	One can pursue a degree in Bachelor of Computer Application (BCA) or a Bachelor of Science (B.Sc.) in Computer Science / Information Technology with an elective/ specialization in Ethical Hacking / Cyber Security / Digital Forensics / Information Security etc. This is offered by many institutes / Universities at National and State Level. Apart from this, there are institutes which give diploma/certification in related programmes. Also, there are Master level Programmes available in these areas.
Q.	**How can I become a Game Designer/ Application Designer?**
A.	One can pursue a degree in Bachelor of Computer Application (BCA) or a Bachelor of Science (B.Sc.) in Computer Science / Information Technology with an elective/ specialization in Game Design/ Application Design / Animation and Gaming / Animation and Visual Graphics / Game Technology etc. This is offered by many institutes / Universities at National and State Level. Apart from this there are institutes which give diploma/certification programmes in related programmes. Also, there are Master level Programmes available in these areas.
Q.	**Where can I study Sports / Travel / Aviation / Event Management?**
A.	In India, these specialisations primarily fall under Management vertical. One can pursue a degree in Bachelor of Business Administration (BBA) or a Bachelor of Management Studies (BMS) with an elective/ specialization in the field of Event Management / Sports management / Travel and Tourism Management / Hospitality and Tourism Management / Aviation Management etc. Apart from this there are institutes which give diploma/certification programmes in practical skill based Management areas like mentioned above, which one can pursue along with ANY Graduation Degree.
Q.	**How can I become an Air Hostess/Steward?**
A.	Any candidate who has passed Class 12 with English as a compulsory subject and has good command on language can pursue a career in this field. Since this is a skill based programme, no specific educational degree or diploma is required for this. There are Private as well as Airline Owned and run training centres which groom you to effectively appear and qualify the selection process for joining this profession. One should Possess the following Qualities: * Pleasing Personality * Good appearance * Pleasant voice * Friendly Nature * Good Communication Skills * Good Interpersonal Skills
Q.	**How can I become a Pilot?**
A.	Any Student who has passed Physics and Mathematics of Class 12 level (or a Science-A Group passed student) can attain a Pilot Licence. The three stages are Student Pilot Licence followed by Private Pilot Licence and finally getting Commercial Pilot Licence from any Flying school approved by Directorate General of Civil Aviation (DGCA) in India. The candidate has to log certain number of required flying hours along with passing tests as prescribed by the DGCA before one can fly an aircraft independently or as a Commercial Pilot. Also one can join Indian Air Force and become a pilot where all your training needs are taken care by the Government of India. In return, you need to serve in the Air Force for stipulated period of time with a bond.

Copyright © 2015-2025 Mohit Mangal. All Rights Reserved.

Q.	**How can I Become an Aerospace Engineer?**
A.	Engineering is a Science related field. The student can take Science as the stream (With Physic, Chemistry and Mathematics) in Std. XI and XII. The student should then study a B.E. / B.Tech. in Aerospace Engineering. Admissions to these programs can be obtained through entrance exams such as the JEE (Mains and Advanced). Consequently, the student may pursue and M.Tech. in Aerospace Engineering. Prominent institutions such as the Indian Institutions of Technology (IITs) offer this program.
Q.	**Is it Compulsory to study Science for getting in Computer Sciences?**
A.	No. Even if a candidate is studying Commerce or Humanities subjects in Std. 11 & 12, still one can pursue Computer sciences through BCA (Bachelor of Computer Applications) or a B.Sc. (Computer sciences / Information technology).
Q.	**I am good with Maths and Physics but find difficulty in coping with Chemistry or I am good with Biology and Chemistry but find difficulty in coping with Physics. What should I do?**
A.	Every student has a natural aptitude for certain types of subjects. Chemistry & Biology are subjects that requires theoretical understanding of concepts and are more rote oriented whereas Mathematics and Physics are subjects which require mathematical and numerical understanding and are more analytical in nature. Typically, a student who may be mediocre in aptitude for theory or analytics, may find it difficult to cope with Physics / Chemistry. To cope with the subject, the student must first work on getting conceptual clarity of the topics. With patience and hard work, it is possible to perform adequately well in weak subjects. While the student may find it a little difficult to devote adequate time on such subjects, one must persist over a long period of time to make sure that they cover up their shortcoming.
Q.	**I am Studying Commerce. Is CA the only BEST Option in commerce?**
A.	CA is just one option available after studying Commerce related subjects in 11th and 12th. There are more than 390 + Degree options and more than 20+ Certifications in the area of Finance which students can pursue after 12th. This is including but not limited to Arts, Business Management, Commerce and Finance, Computer Applications, Design and Fine arts, Economics, Hotel Management, Humanities, Law, Liberal Studies, Mass Communication, Performing Arts, Planning, Sports & Physical Education and Vocational Studies.
Q.	**I am studying Humanities. Are there very little avenues available after Humanities?**
A.	There are 370 + Degree options spread across 15 Higher Education Verticals open for students studying Humanities and Social Sciences related Subjects in 11th 12th. This is including but not limited to Arts, Business Management, Computer Applications, Design and Fine arts, Economics, Hotel Management, Humanities, Law, Liberal Studies, Mass Communication, Performing Arts, Planning, Social Sciences, Sports & Physical Education and Vocational Studies.
Q.	**I want to become a Paleontologist. What should I Study?**
A.	In short, paleontology is the study of what fossils tell us about the ecologies of the past, about evolution, and about our place, as humans, in the world. Paleontology incorporates knowledge from biology, geology, ecology, anthropology, archaeology, and even computer science to understand the processes that have led to the origination and eventual destruction of the different types of organisms since life arose. Therefore one should study History and Biology combination.
Q.	**Can I Study Law in India and practice abroad?**
A.	To practice in the courts of a country, one may need to clear the Bar Council (or equivalent) exam. A theoretical understanding of the subject is necessary. However, it is also important to know the law (statutes) specific to the country that one plans to practice in. A student who has studies in India, would find it easier to clear the Bar exam in India. Similarly, a student from a US based law college, would find it easier to clear the Bar Exam in a state of the US, than a student from India. While it is possible to study law in one country and practice in another, it is highly recommended that one study law from the country that one plans to practice in.
Q.	**As a Commerce or Arts Student, can I pursue B. Sc. Computer Science or B. Sc. Data Science?**
A.	Yes. If a Commerce or Arts students satisfies the minimum eligibility criteria of the institute they may be granted admission. While most institutes give admission in these courses to students from any background, but a few institutes may require the candidate to have studied any one of the Mathematics/ Business Mathematics / Statistics / Accounts / Computer Science / Artificial Intelligence etc. as a subject in class 11 & 12. However, as a word of caution, a significant number of students in such courses may have some prior knowledge of computer languages (such as C, C++, Java, Python etc.). It would be advisable to get some basic knowledge in these areas.
Q.	**Which area of education should I choose which will not be effected by AI in future?**
A.	AI is unlikely to be able to replace jobs requiring human skills such as judgement, creativity, physical dexterity and emotional intelligence. As a result, the highest job growth in 2023-2027 is expected to be for agricultural equipment operators, drivers of heavy trucks and buses, and vocational education teachers, according to the World Economic Forum's Future of Jobs Report 2023. The skills most in demand from employers over the next five years will include analytical thinking, empathy and active listening, and leadership and social influence, according to the report.

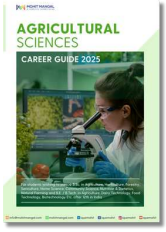
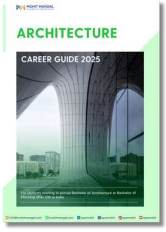
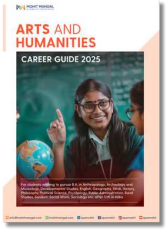
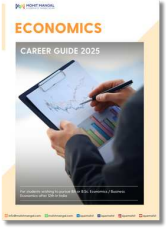
MOHIT MANGAL
A COMPLETE CAREER GUIDE

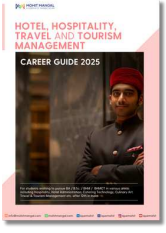
OTHER BOOKS IN THE SERIES

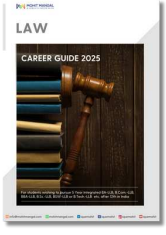


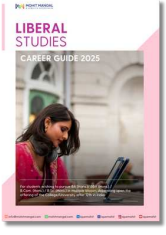


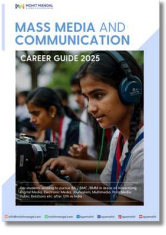


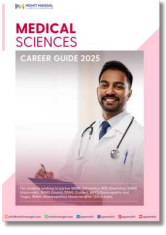


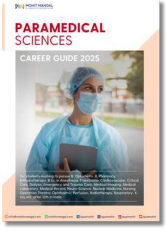


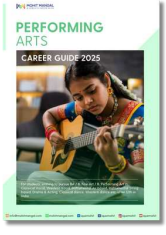


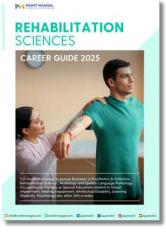


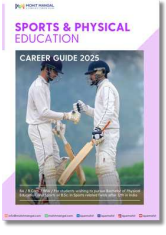


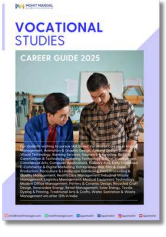


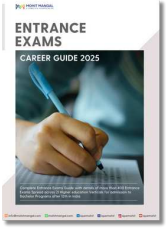












ABOUT THE AUTHORS

Mr. Mohit Mangal is a visionary Author and Career Counselor with over 22 years of experience in shaping the futures of India's youth. He has guided more than 7.5 lakh students through his Career Workshops across India and abroad, making him one of the most respected voices in career counselling today. Central to Mr. Mangal's approach are three key pillars: encouraging 'self-discovery', fostering 'holistic education', and promoting 'careers in India' among students. Mr. Mangal's sessions are designed to help students through self-discovery - identifying their unique strengths, values, and passions. He is also a strong advocate for holistic education, emphasizing the need to equip children with life skills, emotional intelligence, and a mindset for critical & design thinking. Recognizing the pressing issue of brain drain, he is deeply committed to promoting careers in India, helping students uncover the immense potential within India's rapidly growing economy. Mr. Mangal has authored more than 22 books including the most acclaimed Parents' Handbook of Careers After School in India. His publications have got appreciation by the Honourable Prime Minister of India, Shri Narendra Modi, among others. Mr. Mangal's influence extends beyond mentoring and counselling sessions; he has delivered over 1,750 inspiring talks, and given guest lectures at esteemed institutions like Mahmudabad, IIT Bombay, NID, and NIFT, among others. His upcoming initiative, the iQue Foundation, further underscores his vision of promoting career opportunities in India.

Mr. N. Sathyanarayan, a scholar of remarkable intellect and curiosity, has been a pivotal force in shaping the foundation of our efforts to build this. As a Computer Engineer and Masters of Business Administration from the Prestigious IIT-Madras, he brought unparalleled depth and insight to the process, lending his 17 years of academic excellence and practical wisdom to this initiative. An avid reader and traveller, his insatiable curiosity and commitment to knowledge have made him a rare educator who inspires both students and peers. His meticulous approach and passion for nurturing young minds have left an indelible mark on every page of these handbooks. Beyond his academic prowess, he is a thinker, a mentor, and a torchbearer for the value of holistic education. His contributions to this initiative have been nothing short of transformative, and his legacy will continue to guide countless students on their paths to success.
